LIMITED THREE YEAR LABOR WARRANTY-

Golen Engine Service (hereinafter referred to as "GES") warrants that their high performance engine shall be free of defects from workmanship, when installed properly by a competent technician used for normal street operation and serviced at proper intervals for a term of three years from the date of the purchase.

GES will provide full labor repairs and replacement of all parts needed to repair your engine in the event of a problem upon start up. Inspection of the engine must be completed by GES to assure that the engine was not run longer than a few hours. If GES finds that the engine was run longer than a few hours the original Limited Three Year Labor Warranty will not apply.

GES (under the Three Year Labor Warranty) will provide all repair, labor, inspection, machining and assembly at no cost to the original purchaser. The purchaser will be responsible for the cost of all parts needed to repair the engine under the Three Year Labor Warranty. This warranty only covers the engine itself, at no time does this warranty or any other warranty given by GES cover the labor costs to remove or replace the engine from a vehicle or does it pay the labor costs of any mechanic. **No exceptions.**
